PROFESSIONAL SUMMARY

Recent **Computer Science** graduate with a **Math minor**. Experience leading teams as former **President of Women in Computing Science (WiCS)**. Seeking an **Implementation Consultant** or **Product Management** role combining technical problem-solving skills with opportunities to create delightful customer experiences. Bringing **five years of customer-facing work** experience, translating user needs into solutions, and driving process improvements through training and onboarding initiatives.

EDUCATION

- **University of Washington – B.S. Computer Science, Minor in Mathematics**
 - **Expected Graduation: March 2026 | GPA: 3.8 | Dean's List: 2022–2026**
 - **Relevant Courses:** Human-Computer Interaction (HCI), Software Quality Assurance (QA), Cloud Computing, Statistics, Data Structures, Algorithms, Artificial Intelligence, Machine Learning, Principles of Web Design
-

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript (HTML/CSS), R
 - **Tools & Platforms:** AWS (Lambda, S3, CloudWatch, IAM), APIs, SQLite, Git/GitHub, Ubuntu, Figma, YouTrack
 - **Concepts:** OOP, Agile, User Research & UX Testing, Microsoft/Google Office Tools, Technical Documentation
-

LEADERSHIP & WORK EXPERIENCE

President, Women in Computing Science (WiCS)

Apr 2024 - Jun 2025

- **Planned and led bi-weekly meetings** based on activity interest of club members and officers.
- Organized and drove inter and intra campus collaborations for **UHackathon** (92 participants) and **Game Jam** (50 participants, 20 projects), achieving **85%** and **92% CSat scores**, respectively.
- Created a structured **onboarding guide** documenting best practices to streamline officer transitions.

Boathouse 19 Part Time Server/Bookkeeper

Nov 2021 - Present

- Promoted from host to server after 2 years, **delivering personalized customer experiences** in a high-volume, fast-paced environment. **Trained new hosts, servers, and bookkeepers.**
 - **Onboarded as bookkeeper in 3 days**, managing invoice processing and financial reporting on the restaurant's highest-volume days (Friday & Saturday), demonstrating **quick adaptability**. **Authored bookkeeping manual.**
-

SELECTED PROJECTS

[Synchro Studio Redesign](#)

Apr 2025 - Jun 2025

- Led Synchro Studio redesign using **HCI principles** and **rapid prototyping** (storyboarding, paper, and **Figma**).
- **Gathered stakeholder requirements** and **conducted user research** through surveys (13 responses) and participant observation and **presented** iterative design process and [demo](#) to stakeholders.
- Redesigned layout by limiting visible parameters from 24 to 11, introducing visual grouping, and adding search and map import features to reduce cognitive load and improve usability.

[AWS Server less Image Pipeline](#)

Dec 2025

- Architected and deployed a serverless image processing workflow on **AWS Lambda and S3 (Ubuntu environment)** to automate image rotation, resizing, and grayscale transformations at scale.
- Integrated **9 LLM-generated functions** via AWS Lambda, benchmarking outputs with **FaaSRunner** to validate correctness and measure performance across serverless executions.
- Secured resources with **IAM** least-privilege policies and monitored pipeline performance via **CloudWatch**.
