PROFESSIONAL SUMMARY

Recent Computer Science graduate with a Mathematics minor and proven leadership as President of Women in Computer Science. Brings 5+ years of customer service experience alongside strong skills in gathering client requirements, translating needs into technical solutions, and cross-functional collaboration. Seeking a role that combines technical expertise with delivering exceptional client experiences.

EDUCATION

- **University of Washington — B.S. Computer Science, Minor in Mathematics** **March, 2026**
- **GPA: 3.8 | Dean's List:** 2022–2026
- **Relevant Courses:** Human-Computer Interaction, Principles of Web Design, Software Quality Assurance, Statistics, AI, Machine Learning, Cloud Computing, Algorithms, Data Structures, Secure Coding Principles

TECHNICAL SKILLS

- **Languages & Tools:** Java, Python, JavaScript (HTML/CSS), R, SQLite, Git/GitHub, Figma, Jupyter Notebook
- **Platforms:** AWS (Lambda, S3, CloudWatch, IAM), APIs
- **Core Competencies:** Client Requirements Analysis, User Research & UX Testing, Technical Documentation, Training & Onboarding, Agile, OOP, Microsoft Office Suite

SELECTED PROJECTS

[Synchro Studio Redesign](#)

Apr 2025 - Jun 2025

- Led Synchro Studio redesign using **HCI principles** and **rapid prototyping** (storyboarding, paper, and Figma).
- **Analyzed existing client workflow, identified usability gaps**, and reduced visible parameters from 24 to 11 through visual grouping — recommending new approaches to improve software efficiency for end users.
- **Presented iterative design process and live [demo](#)** to stakeholders, translating technical decisions into accessible, client-ready presentations.

[AWS Serverless Image Pipeline](#)

Dec 2025

- Architected and deployed a serverless image processing workflow on **AWS Lambda** and **S3**, securing resources with **IAM least-privilege policies** and monitoring via **CloudWatch**.
- Integrated and benchmarked **9 LLM-generated functions** using **FaaSRunner**, validating correctness and documenting performance — experience directly applicable to **QA** and **implementation testing support**.

[Dough or Die](#)

Jan 2025 - Mar 2025

- **[Web based game](#)** with **custom game engine** built from scratch using **JavaScript, HTML, and CSS**.
- Developed all outdoor game mechanics including enemy movement and collision detection, a health and damage system with visual health bars, respawn logic, and weapon mechanics.
- **Conducted testing and debugging** to ensure functionality and designed with **scalability** in mind.

LEADERSHIP EXPERIENCE

President, Women in Computer Science (WiCS)

Apr 2024 - Jun 2025

- **Built quarterly meeting roadmap** driven by club input, budgeting and balancing resource availability
- Organized **UHackathon** (92 participants, 85% promoter score) and **Game Jam** (50 participants, 92% promoter score), **managing logistics, agendas, and cross-campus partnerships**.
- **Created an onboarding guide** documenting best practices and workflows to streamline officer transitions.
